PROFESSIONAL SUMMARY

Backend-focused MERN Stack Developer with hands-on experience in developing full-stack web applications using Node.js, Express.js, MongoDB, and React.js. Strong foundation in REST APIs, JWT Authentication, database management, and backend architecture. Comfortable working with React for frontend integration while focusing on building secure, scalable, and maintainable backend systems. Passionate about learning modern backend technologies and solving real-world problems.

TECHNICAL SKILLS

- **Languages :**HTML5, CSS3, JavaScript,
- **Frameworks:** Node.js, Express.js, React.js (Basic)
- **Databases:** MongoDB
- **API Development:** RESTful API Design & Integration, Postman
- **DevOps & Tools:** Git & GitHub, VS Code
- **Security:** Authentication & Authorization, Role-Based Access Control (RBAC)

PROFESSIONAL EXPERIENCE

Backend Developer Trainee

January 2026 – July 2026

ITCODE INFOTECH ,Surat ,India

- Completed a 6-month Backend Developer training focused on Node.js, Express.js, MongoDB, and React.js.
- Developed and integrated RESTful APIs for web applications.
- Worked with MongoDB/MySQL and followed clean coding practices.
- Used Git for version control and collaborated on development tasks.
- Built backend applications and hands-on projects using the MERN stack, implementing authentication,database integration, and RESTful APIs.
- Strengthened problem-solving, debugging, and backend development skills through practical project development

KEY PROJECTS

QuickDine - Restaurant Reservation Platform • [Live Demo](#)

Tech Stack:- Node.js, Express.js, MongoDB, React.js, JWT Authentication

- Developed the backend architecture using Node.js and Express.js.
- Designed and implemented RESTful APIs for authentication, restaurant management, and table reservations
- Integrated JWT Authentication with role-based authorization (Admin, Owner, User).
- Designed MongoDB schemas and implemented CRUD operations.
- Integrated Cloudinary for restaurant image uploads.
- Connected backend APIs with the React frontend.

Forever – Full Stack Clothing E-commerce Platform • [Live Demo](#)

Tech Stack:- Node.js, Express.js, MongoDB, React.js, JWT Authentication,Cloudinary

- Built responsive frontend interfaces with React.js for product browsing, shopping cart, and order placement.
- Designed and implemented RESTful APIs for authentication, products, cart, orders, and user management.
- Implemented JWT Authentication with secure login and role-based access for users and admin.
- Integrated MongoDB for data storage and Cloudinary for product image management.
- Developed an admin dashboard to manage products, orders, and inventory.

EDUCATION

Bachelor of Technology — Computer Engineering

2022 – 2026

Bhagwan Mahavir University, Vesu, Surat, Gujarat, India
